Why You Should Choose Bustin To Manufacture Your Custom Platform

EXPERIENCE

For over 70 years, Bustin Industrial Products has been fabricating quality safety access products for major companies in fields such as Pharmaceutical, Food and Beverage, Nuclear, Chemical, and Aeronautical.

RELIABILITY

Since 1928, Bustin Industrial Products has been producing reliable quality products at the Industry's highest standards to ensure our customers safety and satisfaction.

DESIGN CAPABILITY & EXPERT CAD DRAFTING

The Bustin engineering group provides customer-focused design programs that produce cost-effective products. Drawings can be e-mailed for speedy customer approval and quick turn-around.

ISO 9002 REGISTERED & OSHA COMPLIANT

All products manufactured are in compliance with ISO 9002 and OSHA requirements. Bustin also provides technical and regulatory guidance to our customers, and maintains a customer audible quality assurance.

PROVIDE ENGINEERING ANALYSIS & TESTING

Bustin has the ability to provide your company with engineering analysis and calculations. In addition, we do fatigue testing of weldments as part of Bustin's FEMA program.

VERSATILITY

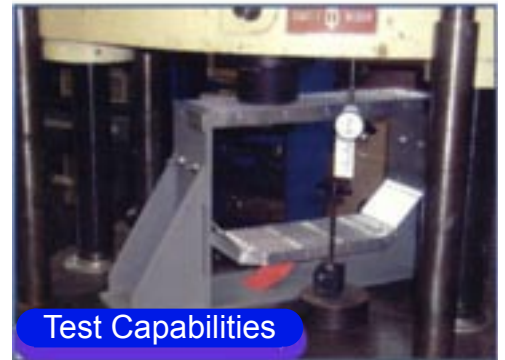

Bustin's versatile 70,000 square foot manufacturing facility (shown at right) can handle any project, large or small.
