

The Grate Baker Ramp

Safety Every Step of the Way

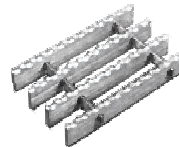

Sturdy, one-piece design flips up easily and quickly to store flat against back of door.

← **Decrease unloading times—Improve driver ergonomics!** →

- Ramp slides back and forth for optimal positioning when unloading or loading.
- Heavy bar side rails provide strength & stability.
- The Bustin **Grate Baker Ramp** reduces Workers Compensation claims by reducing strain on driver's back and reducing slips and falls.
- Light weight, serrated aluminum safety grating provides "Grate" traction!
- All aluminum. No rust.
- Economical
- Capacity 600 lbs.
