

EZ-Out™ Safety Platforms

Safety Every Step of the Way

Safety

Maximum slip-resistance grating steps and landing.

Self-Cleaning

Over 80% open surface area grating

Durable

Rugged and built to last.
Solid and dependable.

Preferred by fleets.

Now available in steel.

Pocono Produce Co. Inc. specifies Bustin EZ-Out Platforms.

*"Our drivers prefer Bustin's aluminum EZ-Out Platforms because they are the easiest to pull out and to stow. With the all-aluminum construction we do not have rust related maintenance problems. Our drivers, also, prefer grated walking surfaces as they are more slip-resistant than diamond plate surfaces. Pocono Produce Co., Inc. specifies **Bustin EZ-Out Safety Platforms** when ordering trailers with side door access."*

Safety conscious fleets specify **Bustin** for an extra margin in safety.

The all-aluminum pullout has many benefits:

- ☑ Drivers will appreciate it's light-weight
- ☑ Does not rust - low maintenance
- ☑ Increased payload due to its low weight.
- ☑ EZ to deploy and stow due to track & wheels.

SYSCO & other quality companies purchase **Bustin** pullout platforms for their reefer trailers.
